

Spark Shark Toss & Catch

PLAY INSTRUCTIONS

Use these cool nets to make the “catch of the day”!

SPARK SHARK TOSS & CATCH (1–2 players)

Toss the ball with one hand and catch it with your Spark Shark net. (The ball is intended to be tossed by hand.)

MORE PLAY IDEAS (2 players or teams)

- Float the two balls in the pool at an equal distance from the two swimmers, who should be in the pool at the “starting line” and each holding a net. On the count of three, each player swims to a ball, catches it in his/her net and swims back to the starting line, carrying the ball in the net only. (No hands!) The first to drop the ball out of the net at the finish line is the winner.
- Each player holds one net and one ball, and floats/stands at the starting line inside the pool. Agree on a finish line, such as the opposite wall of the pool. On the count of three, both players drop the balls into the water, then use only the tail (handle) of the Spark Shark net to push the ball across the pool to the finish line. The first player whose ball touches the finish line wins!

- Each team starts with a ball, a net and one or two swimmers at the starting line. On the count of three, a player from each team swims to the goal line with the ball, leaves it floating there and returns to the starting line. Next, the player or a teammate swims the net to the goal line, uses it to catch the team ball and swims it back to the starting line. The first team back to the starting line wins!

FISH OUT OF WATER (pool-free playtime):

- Hold Spark Shark out in front of you with a ball in the net. Count “One”—rotating the net 360° as you do so. (The net should be upside-down at one point—you have to be quick to keep the ball inside!) Count “One, two”—rotating the net more slowly so you complete one rotation during the count. Continue to count higher each round, rotating the net slower and slower until the ball drops out. Make it a contest by having an adult count while two players rotate the nets. Whoever keeps his/her ball in the net longer wins!
